

NAHFON MEGNAM GLOBAL LTD

Your Trade Partner Bridging the UK & Africa

With a strong presence in the UK, Nahfon simplifies trade between the UK and Africa through complete support, efficiently and transparently.

About & What We Offer

We specialise in sourcing **high-quality** African products, including:

Agricultural Products:

Cocoa, coffee, tea, honey, olives, date fruits and other essential crops.

Natural Resources & Construction Materials:

Natural and elegant marble & stones, durable tiles, premium quality timber, Industrial-grade steel and more.

Leather:

Premium leather products crafted by skilled artisans.

So, whether you're looking for agricultural produce, raw materials, textiles, handcrafted goods, or something else, we handle the entire process—from identifying the right vendors to final delivery and post-sale assistance.

Our Process:

Supplier Vetting

Sampling

Order Confirmation

Production Monitoring
& Audits

Legal Regulations

Shipping & Delivery

Feedback & Claims
(if needed)

Our End-to-End Support

Supplier Vetting

First, we understand your product needs, find trusted suppliers, shortlist the best, and check their legal identity documents (such as business registration, tax ID, and certifications like ISO).

Order Confirmation

After finalising your preferred sample, we confirm all details — specs, quantity, and timelines.

A formal PO (Purchase Order) is sent, payment is processed, and the supplier begins production.

Legal Regulations

We ensure that all shipments comply with international trade laws, customs regulations, and necessary certifications — especially for UK and African markets.

Feedback & Support

After delivery, we check the product quality and review supplier performance. If any issues arise, we discuss them with you and communicate with the supplier for resolution.

Sampling

Once suppliers are shortlisted, we request product samples, define quality checks, and test them under real-use conditions.

We share these samples with you, collect your feedback, and only proceed once you're satisfied. If needed, we compare multiple samples and negotiate with suppliers.

Production Monitoring & Audits

During production, we conduct partial inspections to ensure quality benchmarks are being met.

We monitor timelines, materials used, and any potential deviations — keeping you updated throughout the process.

Shipping & Delivery

We coordinate logistics, confirm shipping details, and manage documentation.

Once the order is shipped, we track it, manage customs if needed, and support final delivery inspection.

Claim Settlements & Arbitrations

If required, we handle claims, coordinate replacements, and ensure dispute resolution — so you stay worry-free.

Why Nahfon?

You can explore the African market on your own as well...
But if you want to focus on growing your business, let Nahfon handle the tricky parts.

Nahfon doesn't just connect buyers to Africa. We manage a process built on experience, trust, and ground-level insight.

African Roots

With African origins, the founder deeply understands the local market and how to navigate it smartly.

Supplier Network

Strong connections across Africa with verified, trustworthy vendors.

Both Side Presence

Offices in the UK. Teams on the ground in Africa.

Transparency

You know who the supplier is from day one. No blind spots.

Trust

Buyers pay suppliers directly — only after approval.

Experience

Years of navigating UK–Africa trade. We know the terrain.

Team

A lean team that knows exactly what they're doing.

Approach

Step-by-step process. Nothing is left to chance.

Legal Compliance

We stay updated with UK regulations and African trade laws, ensuring your business remains safe and future-ready.

Adaptability

We listen. We learn. We move quickly to match your pace.

Confidentiality

Exclusive agreements can be signed when needed.
